

COVID-19: THE POTENTIAL IMPACT TO BUSINESS

- ✓ Have you adequately addressed your duty of care?
- ✓ Are you effectively contributing to the World Health Organization (WHO), National and State response measures?
- ✓ Have you factored in the integrity of your supply chain?
- ✓ Have you got a business continuity plan that takes into consideration unexpected events and crises?
- ✓ Have you created a business survival strategy that will actually work?
- ✓ Have you considered the ripple effect of having remote and isolated workforce?

It is of **vital importance that you future-proof you, your staff and your business** against unforeseen dramatic economic changes or disasters (such as bushfires and pandemics), which have (at times severe and extreme) adverse effect on business – whether directly or indirectly.
