SWIFT Customer Security Programme (CSP)

Our SWIFT Customer Security Programme (CSP) service offers comprehensive support to businesses aiming to achieve compliance with SWIFT's mandatory and advisory controls. We assist in the attestation process and provide assessments related to the CSP programme. Our offerings include a pre-attestation review of controls and a comprehensive attestation review to ensure your organisation meets the necessary requirements for a successful CSP assessment.

- **Two-day pre-attestation** review of mandatory and advisory controls
- **Four-day attestation** review of mandatory and advisory controls
- Comprehensive assessment of compliance status
- Guidance and support for completing attestation process

Cyber Security

Our Cyber Security service offering is designed to help businesses protect their systems, networks, and data from cyber threats. With a focus on comprehensive security measures, we provide a range of services to ensure a strong cyber defense posture.

- **Cyber Essentials** certification assistance
- **ISO 27001** implementation and certification
- **Cyber Health Check** and security
- **Virtual Cyber Security Officer** services

Data Protection Officer

We assist businesses in ensuring compliance with General Data Protection Regulation (GDPR). We provide expert guidance and support to help organisations establish and maintain robust data protection practices.

- **Level 1:** Initial set up and compliance audit, review of policies and procedures, annual training and awareness sessions on GDPR.
- **Level 2:** Sector-specific monitoring and guidance, data inventory and information asset register development, advice and review for Data Protection Impact Assessments (DPIA).
- **Level 3:** Attendance of board meetings, management of Records of Processing Activities (ROPA), support for data processing agreements and international data transfers.

Our expert team is here to support you. Contact us today to discuss your specific needs and discover how we can provide tailored solutions to protect your business and ensure regulatory compliance. Don't wait, safeguard your organisation's future now.
